The Future of Comfort

Ultrafabrics creates materials for tomorrow. Uniting craftsmanship with purposeful innovation, we design the most comfortable and uniquely sensorial upholstery materials engineered for performance.

Crafted Intelligence

Our proprietary Takumi™ Technology reflects the hands-on process in which our products are developed from concept to application.

- 01 Premium polycarbonate construction
- 02 16 weeks hydrolysis resistance
- 03 Inherent thermal comfort

Live Outside The Box

Developed with the effects of Mother Nature in mind, Ultrafabrics' selection of outdoor materials can withstand the elements while maintaining their lasting beauty and comfort, no matter the forecast.

Indoor Style. Outdoor Performance.

Coast

Bringing indoor luxury to the great outdoors, Coast has a timeless grain and soothing color palette. Tested for two years in real-world applications, including the hot and humid climates of Arizona and Florida, the collection provides both substance and style.

Pumice

With a subtle texture and curated palette of stylish neutrals, Pumice delivers all-around style and protection for all applications.

Design Without Limits

Make a statement with a range of one-of-a-kind textures that can easily integrate into any aesthetic. There's no need to sacrifice luxury for function or beauty for performance – have it all!

Tried and Tested

From helm and lounge seating to fly-bridges and more, Ultrafabrics provides the resilience needed for long days on the water.

- 01 Easy to clean
- 02 Solar endurance
- 03 Unmatched comfort
- 04 Inherent stain protection
- 05 Mildew and moisture resistance

Our Sustainable Future

Ultrafabrics are forward-thinking materials that are manufactured responsibly with people and planet in mind. Low in VOCs and free of toxic products, our fabrics are safe for everyone, so you can breathe easily.

- 01 Reach compliant
- 02 Indoor Advantage Gold certified
- 03 Japanese mill is ISO 14001 certified
- 04 Free of PFOA, PVC, plasticizers, flame retardants, and formaldehyde

Material Innovation

We're shaping the future of high-tech performance materials, where sustainability is built-in. Beauty, performance, comfort, sustainability - there's no need to compromise.

Volar Bio*

Proudly touting a 29% USDA BioPreferred Program Label, Volar Bio includes renewable materials that reduce our dependence on finite resources.

TENCEL™ Modal Fibers

Ultrafabrics are the first and only polyurethane materials to incorporate TENCEL™ Modal fibers, which are included in 30% of our portfolio.

Sustainable & Recycled Yarns*

A growing number of our collections now include recycled polyester and sustainably sourced rayon fibers in their backcloth including Brisa, Brisa Distressed, and Promessa.

Every yard with this blended backcloth contains approximately 8 recycled plastic bottles.

*Below Deck applications only.
TENCEL™ is a trademark of Lenzing AG

Worry-free Performance

Ultrafabrics are engineered for maximum durability and minimum maintenance, providing one less thing for you to worry about.

Our materials feature inherent benefits like:

- 01 Ease of care
- 02 Stain resistance
- 03 Bleach cleanability

Preferred Cleaners and Disinfectants

One of the best ways to keep Ultrafabrics looking great and germ-free is through proper maintenance and regular cleaning, preventing excessive dirt from accumulating.

Below is a list of cleaners and disinfectants that have been tested on Ultrafabrics materials with passing results when cleaning guidelines are followed as directed*:

- 01 Soap and water
- 02 1:5 household bleach:water solution
- 03 Clorox® Disinfecting Wipes
- 04 Fantastik®
- 05 Formula 409®
- 06 Lysol® Disinfecting Wipes
- 07 Isopropyl/rubbing alcohol (70%)

*Do not saturate/soak material with cleaner/disinfectant. Rinse with clean water after exposure to eliminate residue. This recommendation will prolong the life of various furniture components (thread, seam, foam, etc.) that can potentially be impacted by cleaner/disinfectant residue.

Warning: this information is not a guarantee. Please use all cleaning and disinfecting agents safely and as instructed. The use of other cleaning agents, disinfectants, conditioners, or protectants can degrade fabric performance and may void Ultrafabrics' warranty.
